DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

USE RESTRICTIONS

- Apply this product only as specified on this label.
- This product is labeled for indoor use only in the structures listed under For Use In.
- Only protected applicators may be in the treatment area during application.

- Do not apply this product in a way that will contact adults, children or pets. Remove pets, birds and cover fish aquariums before spraying.
- Do not use this product on pets.
- Do not use treated article until spray has dried.
- Remove or cover exposed food and drinking water, in the treatment area, before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces in the treatment area, or wash them before use.
- Do not apply directly into sewers or drains or to any area where drainage to storm sewers, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Do not apply this product in hospital rooms while occupied or in any rooms occupied by the elderly or infirm. Remove patients from room prior to treatment and thoroughly ventilate (2 hr) after application. Do not return patients to room until after ventilation.
- Do not apply to classrooms when in use.
- Do not apply more than 1 time/day.

PRODUCT INFORMATION

This product kills fleas and prevents flea infestations for a full season. Adult fleas may be seen in treated areas when brought in on infested animals or when adults emerge from pupal cases; however, a population will not develop in the treated areas.

In transportation equipment, certain plastics may be whitened or dulled. Apply only to carpets and cloth upholstered areas, or test an inconspicuous area before applying.

APPLICATION INSTRUCTIONS

SHAKE WELL before use. Cover aquariums and fish bowls, and remove birds from area prior to application. Apply at the rate of 20 oz/2,625 ft² (10 oz/1,300 ft²). Carpeted areas may be vacuumed before application and after treated carpet has dried. Treat infested areas or areas which could be infested, such as carpets, rugs, upholstered furniture, pet beds and pet resting areas. Hold can at arms length and direct spray toward the area to be treated. Use a sweeping motion to apply product and back away from treated area while holding the can 36" from the surface being treated. An area of 80 - 100 ft² can be treated in approx. 10 sec. When treating upholstered furniture, treat under cushions and areas where flea development occurs. Do not treat areas of prolonged human contact.

Do not treat pets, including cats and dogs, with this product.

NOTICE: This product has been tested on several types of carpet, fabric and other household furnishings without adverse affects. In a few instances, waxed surfaces have been whitened or dulled. Holding the can 36" from the target

surface will normally prevent any whitening from occurring. Because of the wide variety of floor types and finishes, treat a small, inconspicuous area before treating the entire area. Avoid contact with antique finishes.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry area away from heat or open flame and inaccessible to children.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not puncture or incinerate! If empty: Place in trash or offer for recycling, if available.

If partly filled: Call your local solid waste agency for disposal instructions.
